Leave a Lasting Legacy

A bequest through your estate plan is a meaningful way to help ensure that Cape Cod will be protected for future generations. Estate gifts can be made through a will or a trust, and both vehicles enable assets to be distributed to the Association to Preserve Cape Cod (APCC) in the amount or proportions indicated.

APCC provides opportunities for individuals to assist our work to preserve and protect Cape Cod's natural beauty and quality of life. Bequests from our members and friends help make it possible to continue our efforts to speak out for Cape Cod and fight for the protection of our environment, just as we have done since 1968.

All assets, including cash, securities, real estate and tangible personal property, may be transferred to APCC through a donor's estate.

If you are one of those special people who have already included APCC in their will please let us know so that we can add you to our bequest society.

For more information or sample language that will assist you and your attorney in creating a bequest to APCC please contact Maggie Geist, Executive Director at 1-877-955-4142 or mgeist@apcc.org.

Dear Friends,

This special 2007 Annual Report begins our celebration of APCC's 40th Anniversary as Cape Cod's foremost environmental organization.

The map and accompanying text spotlight 40 of APCC's most significant achievements and illustrate the reach and the magnitude of our efforts over the past decades.

As you look over the map and read the descriptions of successes, projects and programs, please congratulate yourselves—after all, it is you, our members that have provided the resources that have supported APCC efforts for four decades.

While commemorating our past achievements, APCC is focused on our future challenges and opportunities. Much work remains to be done to safeguard water quality and our natural landscapes. With your dedication and our commitment, we have no doubt that we will succeed. We look forward to the next 40 years.

Thank you,

Maggie Geist
Executive Director
