RE: Brewster Conservation Day Grant Application

To Whom It May Concern:

The Association to Preserve Cape Cod (APCC), the Cape's leading nonprofit environmental advocacy and education organization, writes in strong support of the Brewster Conservation Trust's grant application to the Cape Cod Foundation for funding to assist in planning and organizing the second annual Brewster Conservation Day in July, 2013.

APCC is Cape Cod's leading nonprofit environmental advocacy and education organization, working for the adoption of laws, policies and programs that protect and enhance the Cape's natural resources and quality of life. As such, we believe Brewster Conservation Day, which is sponsored by the Brewster Conservation Trust, the town of Brewster Natural Resources Department and the Brewster Conservation Commission, is an excellent forum for educating members of the public about the Cape's environment and ongoing efforts to protect and restore it.

The event's family-oriented activities, displays and presentations will promote a better understanding of important conservation efforts taking place in the town of Brewster and elsewhere on Cape Cod, and will help encourage a greater sense of environmental stewardship among the Cape's residents and visitors.

In the past, APCC has partnered with the Brewster Conservation Trust and the town of Brewster on several highly successful land conservation efforts, ecological restoration projects and environmental education initiatives. We are pleased to be one of many organizations who will participate in Brewster Conservation Day, which promises to be another demonstration of the Brewster Conservation Trust's and the town of Brewster's strong commitment to protecting the town's unique natural resources.

Sincerely,

Ed DeWitt  
Executive Director
